Skills

- **Languages**: C++, JavaScript, C, TypeScript, Java, Python
- **Frameworks**: React.js, Node.js, Flask, HTML, CSS
- **Tools/Platforms**: MySQL, Cisco Packet Tracer, Git, GitHub
- **SoftSkills**: Problem-Solving, Team Player, Adaptability, Time management

Projects

- **DwelDubai – The Future of Visa Consultancy | GitHub** Mar 2025 – Aug 2025

  - Built frontend modules for DwelDubai, a consultancy platform for UAE and Saudi Arabia relocation services, covering study, tourist, and work visa sections.
  - Developed responsive UI and interactive service components using React and Tailwind CSS to streamline visa information access and overall user navigation across the platform.
  - Delivered scalable modular layouts and reusable components, ensuring consistent design across multiple visa categories while enhancing usability and maintainability.

  Tech: React.js, JavaScript, Tailwind CSS, HTML5

- **SportsPulse – AI-Powered Sports News Aggreagtor | GitHub** Jul 2025 – Aug 2025

  - Built real-time sports news aggregation pipeline using NewsAPI to fetch and organize latest articles across multiple sports categories for structured and dynamic content delivery.
  - Integrated Google Gemini AI with Node.js backend to generate intelligent responses for sports-related queries and deliver context-aware insights through an AI-powered chatbot.
  - Developed a responsive interface for real-time sports news browsing and category filtering.

  Tech: Python, Scikit-learn, Pandas, Flask, HTML/CSS, JavaScript

- **AI – Powered Process Analyzer | GitHub** Jun 2025 – Jul 2025

  - Built an AI-driven system monitoring tool for real-time process analysis, tracking CPU and memory usage across running processes to identify abnormal system behavior.
  - Integrated machine learning anomaly detection using Isolation Forest to analyze process metrics and detect suspicious activities within system resource patterns.
  - Developed automated threat detection workflows to identify malicious process patterns and enable secure termination for improving system security and monitoring reliability.

  Tech: Python, psutil, Pandas, Scikit-learn, Prophet

Training

- **CSE Pathshala | Certificate** Jun 2025 – Aug 2025

  C Programming language – CSE Pathshala

  - Completed a Summer Training Program in C Programming at CSE Pathshala gaining strong foundational and practical coding skills.
  - Worked on hands-on exercises involving arrays, pointers, functions, file handling, and problem-solving
  - Developed the ability to write efficient programs and debug real-world coding tasks with best-practice coding standards.

Certificates

- IBM, Introduction to Hardware and Operating Systems | Coursera | Certificate Dec 2024
- Google, The Bits and Bytes of Computer Networking | Coursera | Certificate Dec 2024

Achievements

- Solved 100+ problems on Leetcode
- Reached last round of the Smart India Hackathon gateway

Education

Lovely Professional University Phagwara, Punjab

- *Bachelor of Technology – Computer Science and Engineering;* ***CGPA:6.7*** *Since August 2023*

Maharishi Dayanand Public School Kaithal, Haryana

- *Intermediate;* ***Percentage: 74%*** *April 2022 – March 2023*

Maharishi Dayanand Public School Kaithal, Haryana

- *Matriculation;* ***Percentage: 72%*** *April 2020 – March 2021*
